

AP DEGREE IN

FASHION DESIGN

+ Bachelor top-up:
> International Sales & Marketing

The academy degree in fashion design is a job oriented 2-year higher education programme. During a two-year period you will get to know everything about clothes and textile - from idea and sketching to distribution and marketing.

You will be challenged continually to combine knowledge about design, idea development, con-

struction, technical production, communication, purchasing and trading. Then apply this know-how about fashion and lifestyle to the textile and clothing industry.

Through individually chosen subjects and internship you may even customize your own profile. Fashion and lifestyle is a developing and global business for Denmark.

Consequently the teaching programme is internationally oriented. Lectures are in English and your fellow students are from all over the world.

During the course you may experience the world. It is possible for you to choose an internship abroad.

FASHION DESIGN

For you who wants to work with design and technical production of clothing and textiles in the fashion and lifestyle industry.

STUDY FORM

The programme consists of 4 semesters each of 6 months duration.

There is an introductory part consisting of mandatory courses, a part consisting of elective courses, an internship and a main project.

GENERAL PART

During the first semester there are 8 mandatory courses: the design process, value philosophy, the company, aesthetics, technology and environment, trade and communication.

For the 2nd semester you should choose either of the two profile areas of the study programme:

- Design: how to evaluate the design process and how to apply this in design and in the construction processes.
- Business: how to analyse and organise purchasing, export and logistics.

On the 3rd semester you continue with the profile you have chosen and you will specialise in:

- Design: print, fur and draping.
- Business: purchasing, marketing and retail management.

INTERNSHIP

During the final semester you have a three months internship in a company. You may choose between a Danish or a company abroad. Here you can put your skills to work in a practical context.

CAREER

JOB OPPORTUNITIES

With an AP degree in fashion design you work with textiles and clothing in the fashion and lifestyle industry. Your job assignments range from project management, trend research, preparation of sales material, textile purchasing to design etc.

Some holders of the academy degree in design and technology start as manager

trainees and later become managers themselves.

FURTHER EDUCATION

The AP degree in fashion design gives access to the advanced level program industrial designer.

Moreover the academy has a partnership agreement with Birmingham City University, UK. Here you may top-up with a bachelor degree in just one year.
