

Welcome to Business Academy South West

Studying at Business Academy South West as an Erasmus student

The courses offered to international Erasmus students have been carefully designed and developed to give the students coming to Denmark a lot of academic input for their future study in their home country.

It is hoped that from this presentation you will get a flavour of the life experience waiting for you in Denmark and a brief overview of the educational programmes on offer to you. All the programmes contained on these pages are delivered in the English language and are truly international as we are welcoming students from all over the world and on every semester we approximately have 20 nationalities represented in our programmes.
